WEB DEVELOPMENT INTERNSHIP PROJECTS

Total No Of Projects: 3
Duration: 1 Month

1. Personal Portfolio Website

Project Name: "My Digital Showcase"

Description: Create a personal portfolio website that showcases your skills, projects, and experience. This website will serve as your digital resume, helping you present yourself to potential employers or clients.

Features:
- Home Page with a brief introduction and a professional photo.
- About Me section detailing your background, education, and interests.
- Skills section highlighting your technical and soft skills.
- Portfolio section showcasing your projects with descriptions and links to live demos or GitHub repositories.
- Contact Form for potential clients or employers to reach out to you.
- Blog section (optional) to share your thoughts on industry trends, tutorials, or personal experiences.

2. Movie Fan Page

Project Name: "Movie Buff Central"

Description: Develop a fan page dedicated to a popular movie or movie franchise (e.g., Harry Potter, Star Wars, Marvel Cinematic Universe). This page will serve as a hub for fans to learn more about their favorite movies and characters.

Features:
- Home Page with a brief introduction and movie poster images.
- Character Bios with images, descriptions, and interesting facts.
- Embedded Movie Trailers directly from YouTube.
- Quote of the Day feature using JavaScript to display random quotes from the movie(s).
- Trivia Quiz section to engage fans with questions about the movie or franchise.

3. Cricket Star Showcase

Project Name: "Cricket Legends Hub"

Description: Build a website that showcases the profiles and achievements of famous cricket players from around the world. The site will be a go-to destination for cricket fans to learn about their favorite stars.

Features:
- Home Page with a brief introduction to the world of cricket and featured players.
- Player Profiles with images, career statistics, and notable achievements.
- Interactive Map showing the hometowns or countries of the featured players.
- Top Matches section highlighting memorable games with video highlights and descriptions.
- Fan Zone where fans can submit their favorite player stories or vote on the greatest players of all time.

Technologies Used: HTML, CSS, JavaScript (for interactivity and animations).
